HERO WALLET

INTRODUCTION:

HERO WALLET explodes in 2021, it will be one of the pioneering projects in a new trend with different solutions for the market. Combined with the good interest savings deposit feature right on the wallet, the passbook will be NFTized by Blockchain technology, making the interface the easiest, safest, and most transparent. Simultaneously with the passive profit development model, it will stimulate the expansion of the user community and it is also the mission to build wallet integration on the crypto payment system at field locations.
